College*

Seattle, Wash

Feb. 8, 1979

Dear Mr. S,

Enclosed is a check for \$15.00. The "FUNDAMENTAL PRINCIPLES OF SCIENCE OF BEING" is now \$35.00 and the book "IS THERE A GOD?" is \$10.00.

Re your inquiry as to procuring a copy of "SCIENCE OF BEING" by Eugene Fersen we are sorry to relate there are no more copies available at the present time.

We have for sale "THE OUR FATHER MESSAGE" - \$2.00 The last message our teacher EUGENE FERSEN gave to Humanity before he passed into the beyond. We also have the "MORNING STAR" \$10.00 A reproduction of a picture that Malcolm Thurburn had painted during the first years of the Great War at the request of Baron Eugene Fersen of Moscow Russia. This picture is considered the masterpiece of Princess M. Eristoff, a renowned Russian artist member of the French National Society of Fine Arts in Paris whose wonderfully living portraits and extraordinary mystic subjects have won high honors in the annual exhibits at the French "Salon". It represents in allegorical form the transition NOW in process in the evolution of Humanity. Malcolm Thurburn, the author of this mystical frame, is an English Artist, whose novel and original ideas have created a great sensation in America and in Europe. Both artists, Princess Eristoff and Malcolm Thurburn have embodied their very souls in this picture and thereby endowed it with an extraordinary appeal which mere technical perfection could never impart. The more one sees it, the more fascinating it grows, a living MESSENGER to those who possess it, of wonderful times to come. It is a picture which brings blessings and harmony to the homes where it abides. And above all, it is a real companion, because it is a "PICTURE WITH A SOUL". The size of the picture is 16 by 34. If you do purchase the "OUR FATHER MESSAGE" or "THE MORNING STAR" I would suggest you have a frame in mid-night blue to match the blue in the picture. Some people prefer a gold frame which is also very lovely.

Rosalie had passed into the beyond a year ago October the 9th. Sorry that you never had the opportunity to meet her. She devoted most of her life to "SCIENCE OF BEING" and was a very remarkable person. I had known Rosalie for many many years.

With kindest thoughts

From
