

The Relative Heavenly Eternal Realm

Know Thyself And Thou Shalt Know All

When Eternal Soul, through Its use of Spiritual Energy benevolently chose Mind-fully to separate from the Graces of the Heavenly Eternal Realm and Its Superconscious oneness with the Great Principle – The Creator, a new “Bio-Neuro-Spiritual World,” and a Solar System to support Its inhabitants, were artfully born in this Universe. These new systems were solely encrypted with all the wisdoms and Life Force Energy to support and nourish Soul’s sophisticated yet subastral creation, as long as the skills to decipher and access the Nature of their algorithm designs was preserved within the lineage of Soul’s Spirit as it lived in this new World.

Hence, the Souls that came forth from this phenomenon emerged in elemental form- crystallized vibrations as separate aspects of the One true Nature of their prior Divinity and began creating substance to support their mission; their purpose in a now material world. These now Earth bound Souls, backed with the help of “The Great Law;” and with the hope that Supreme Harmony would reign in their new world, believed they would achieve and prevail at their Earthly purpose and task to create a Heavenly Eternal physical world.

Souls that once inhabited the Eternal Realm aspired to experience the spiritual alchemy of a “Bio-Neuro-Spiritual World.” There encoded and housed in these newly formed matter-bound Heavenly bodies, was their “Eternal Supreme DNA.” These Souls outfitted with the profound aspects and abilities of their Supreme Eternal Nature encoded in their human DNA; backed with their divine intent, began to re-create collaboratively the nature of their divinity in this new world. Souls in the Eternal Heavenly Realm, the Realm of Harmony, never knew fear, aging, death, hunger, poverty, physical suffering, pride, hatred or lacked the power of Love - attraction.

In the Eternal Realm, the Universal Laws operate as one law and those laws are infinitely governed by three immutable forces called “The Great Law.” But, here in the Relative Realm there would be altered aspects to the Universal Laws in relation to Soul made manifest in a physical world: First - that Soul, through the Eternal Force of Its Spiritual Energy would have access to and the use of Its Supreme Aspects of Creative Force so as to create what It desired at Mind’s free will. Secondly - in the Earthly Realm, the Universal Laws that were once inseparable Eternal Forces became separate Eternal Aspects of their once united Heavenly Nature. And Thirdly – If Soul’s Spiritual Vibrations are not in tune with the Supreme Nature of Eternal Harmony before reentering the Eternal Realm, then by way of the governing aspects of the Law of Attraction and the supporting virtues of the Law of Evolution, Soul would be drawn again to incarnate solely with the intent to liberate Its Spiritual Vibrations from the magnetic rhythms that bind Soul’s Spirit to the material plane of existence.

As these Souls took root in the Relative Realm, they began to manifest and create life without a conscious understanding about there being a physical separation from their Divine Nature, the Universal Laws, their Creator or one from another. But this would change throughout their evolution. While these Souls forged and carved out their new world they simultaneously created energy-dynamic relationship with all that they had created through the Laws of Cause and Effect, the Law of Rhythm and the non-negotiable Immutable Laws of the Universe. They began to Love and worship the perishable instead of the Eternal and created Laws from untruths instead of embracing the Laws that once brought them salvation, preservation and Liberation.

Most Scintillating as a Brilliant Star was to be the prevailing aspect of the Eternal Mind made manifest. But, throughout time on the physical plane of existence, mind was deceived by Its own power and misplaced Its benevolent Truth, Divinity and Eternal plan. Spirit reuniting with Its Eternal Twin, Soul and awakening to Its Divinity, has become Humanity’s age old quest for the unknown. To “Know Thy Self,” as a living manifestation of the All Powerful living force of the Eternal and to make this

Wisdom Law (Truth,) once again has now become Humankind's foremost aim and their mind's greatest challenge.

The choice to transcend the Physical Realm and return to the ways of the Eternal was a path never lost; there at the bridge to the Infinite is a gate that swings freely and at will between these Worlds. Still today it seems for Humankind, that there is yet a long road to travel before Liberation is realized and materialized on the Earth Plane; but with the help of The Great Law and the merciful aspects of the Law of Evolution and its loyal ally Hope, Humanity will prevail.

As more Light is shed on the Wisdom that is before me in the rare archival documents written and taught by The Teacher of The Teachers, Eugene Fersen, I have been shown that there has always been a proper scientific and spiritual term for our Earthly Realm. It seems over time, it has escaped Humanity's grasp to embrace and be-hold. Now that we have entered the "Sixth Race of Humanity," the race of the "New Age," where much Truth has been laid before the feet of Humankind, it is now suitable and a moral obligation to reveal what has been shown to me and from this day forward address this realm by its proper and All Powerful name, "The Relative Heavenly Eternal Realm."

I have come to fully understand, as I embrace my purpose, my Destiny as Acting Head Lightbearer for the Science of Being ~ Lightbearers World Center the "Why," I was chosen to hold the space of the Seat Of Inspiration for this generation – that I would in my time, carry out the most important virtue of its duty - to put forth the unpublished Wisdom left for me in print without reservation or withholding. I have intimately come to know the Baron Eugene Fersen by reading and being with his work since I was a child. I was taught by his words and by the actions of my Lightbearer Family, the deeper meaning of Truth and shown the depths and tenacity of Love. While Eugene lived, he eradicated the forces of the rhythms that bound the human Spirit to the polarities found in this World.

As I continue to unfold and put into print the rare archival information, I know without a shadow of a doubt that these teachings and other wisdoms still not yet revealed were never to be kept secret from Humanity. These unprincipled actions have created and supported a consumptive deterioration in the Evolution of Humankind. Eugene never referred to the Science Of Being Teachings as Esoteric or attributed their wisdoms to any one philosopher or teacher except for the Great Principle and for very good reason, as those statements worked against the Law – Truth. He taught The Science Of Being teachings freely, whenever one was ready to learn and wherever he was given the opportunity to speak about them; he did so with a devotional determination that was unwavering, until he went into the Great Beyond.

The Seat of Inspiration, the seat Eugene Fersen sat in, has been an immeasurable seat for me to behold; I do my best to honor my Destiny and purpose in a good way; with a great respect for All Life. For as many thumbprints that exist in human form and blueprints found in Nature, that's how many religions reside on our planet. The path that each Spirit must live to become One again with Its Eternal Soul and Its Creator is as unique as Its thumbprint. As I honor the incomparable you, I also honor your personal relationship with the Eternal and the path – the “Why,” you must live so as to unearth your Divine Destiny and return to the gate that swings freely and at will between the worlds.
